Handbook of Pharmaceutical Manufacturing Formulations: Over-the-Counter Products (Volume 11) By Sarfaraz K. Niazi

Over-the-Counter products comprise a special category of healthcare products. While these formulations have much in common with their prescription counterparts, they are presented in this series separately because of their development approach taken, labeling considerations required, and support available from suppliers of ingredients in designing these products.

Highlights from Over-the-Counter Products, Volume Five include:

- solids, liquids, and suspensions
- practical advice on how to bring manufacturing practices into compliance with regulatory requirements
- cGMP considerations in great detail
- a large number of formulations of coatings of solid dosage forms
