Editorial Review

Review

From the reviews:

“This book is the initiation of a new approach to bring together many apparently separate concepts, views, and studies in a practical way that is of benefit for all the components of the environment that all humans are part of. … the book is recommended not only for people interested directly in geoparks or geotourism, but also for anyone interested in a holistic approach to the awareness of an environmental culture.” (Javier Agustin-Flores, Bulletin of Volcanology, Vol. 76, 2014)

From the Back Cover
