Modelling and Parameter Estimation of Dynamic Systems (Iee Control Engineering) By J.R. Raol, G. Girija, J. Singh

Modeling and Systems Parameter Estimation for Dynamic Systems presents a detailed examination of the estimation techniques and modeling problems. The theory is furnished with several illustrations and computer programs to promote better understanding of system modeling and parameter estimation. The material is presented in a way that makes for easy reading and enables the user to implement and execute the programs himself to gain first hand experience of the estimation process.

Supplementary material can be found at the IET's ebook page

Editorial Review

Review
'while this book would be of interest to the general reader, it is of particular appeal to science and engineering students at all levels. It also presents a definite benefit to practising engineers and lecturers who are engaged in parameter estimation work. I found this an enthralling read, which now has a prominent place on my bookshelf - it certainly will be referred to in the future.' -- Karl O. Jones Measurement & Control

About the Author
J.R. Raol is a senior scientist with National Aerospace Laboratories (LAB). His research interests include multi-sensor data fusion, parameter estimation and artificial intelligence. Dr. Raol is the author of 100 papers and publications, and is a senior member of the IEEE, a life fellow of the Aeronautical Society of India, and a life member of the System Society of India. He has B.E. and M.E. degrees in Electrical Engineering from M.S. University in Baroda, and a Ph.D. from McMaster University, Canada.

G. Girija is a senior scientist with National Aerospace Laboratories (LAB). Her research areas are parameter estimation of aerospace vehicles and multi sensor data fusion. Dr. Girija is the author of 50 papers and publications, and is a life member of the Aeronautical Society of India. She received an M.Sc. and Ph.D. from Bangalore University.

J. Singh is a scientist with National Aerospace Laboratories (LAB). His research areas are aircraft modelling and parameter estimation. Dr. Singh has worked as a guest scientist at DLR-Institute for Flight Systems, Germany, and is a senior member of the AIAA and a life member of the Aeronautical Society of India and the System Society of India. He has a Ph.D. in Aerospace Engineering from IIT Kanpur.

Users Review

From reader reviews:

Ruth Powers:

Have you spare time for the day? What do you do when you have a lot more or little spare time? Sure, you can choose the suitable activity regarding spend your time. Any person spent all their spare time to take a move, shopping, or went to the Mall. How about open as well as read a book eligible Modelling and Parameter Estimation of Dynamic Systems (Iee Control Engineering)? Maybe it is for being best activity for you. You realize beside you can spend your time along with your favorite's book, you can better than before. Do you agree with their opinion or you have various other opinion?

Juan McCain:

As people who live in the modest era should be upgrade about what going on or facts even knowledge to make them keep up with the era that is always change and move forward. Some of you maybe will probably update themselves by reading through books. It is a good choice in your case but the problems coming to a person is you don't know which one you should start with. This Modelling and Parameter Estimation of Dynamic Systems (Iee Control Engineering) is our recommendation to help you keep up with the world.

Why, because this book serves what you want and want in this era.

Judith Bode:

Do you one of the book lovers? If so, do you ever feeling doubt while you are in the book store? Attempt to pick one book that you never know the inside because don't judge book by its protect may doesn't work the following is difficult job because you are frightened that the inside maybe not as fantastic as in the outside seem likes. Maybe you answer can be Modelling and Parameter Estimation of Dynamic Systems (Iee Control Engineering) why because the great cover that make you consider concerning the content will not disappoint anyone. The inside or content is usually fantastic as the outside as well as cover. Your reading 6th sense will directly direct you to pick up this book.

Debbie Allen:

This Modelling and Parameter Estimation of Dynamic Systems (Iee Control Engineering) is great reserve for you because the content that is certainly full of information for you who also always deal with world and have to make decision every minute. This specific book reveal it information accurately using great plan word or we can state no rambling sentences included. So if you are read the idea hurriedly you can have whole facts in it. Doesn't mean it only provides you with straight forward sentences but tough core information with splendid delivering sentences. Having Modelling and Parameter Estimation of Dynamic Systems (Iee Control Engineering) in your hand like obtaining the world in your arm, data in it is not ridiculous just one. We can say that no book that offer you world inside ten or fifteen second right but this e-book already do that. So , this can be good reading book. Hey there Mr. and Mrs. active do you still doubt that will?
