Modern Financial Macroeconomics: Panics, Crashes, and Crises By Todd A. Knoop

Modern Financial Macroeconomics takes a non-technical approach in examining the role that financial markets and institutions play in shaping outcomes in the modern macro economy.

- Reviews historical and contemporary macroeconomic theory
- Examines governmental influence on moderating (or exacerbating) economic fluctuations
- Discusses both empirical and theoretical links between financial systems and economic performance, as well as case studies detailing the role of finance in specific business cycle episodes

Editorial Review

Review
"This is a good book and one that would be suitable for undergraduate courses on this topic." (*CHOICE*)

From the Back Cover
This timely text examines the role that financial markets and institutions play in modern macroeconomics. Over the last couple of decades there has been a fair amount of research on microeconomic models of market failure and the impact of such failures on business cycles and other macroeconomic phenomena. Recessions and depressions are examined afresh in detail. Financial panics and meltdowns like the currency crashes of the 1990s are examined for macroeconomic impact and recoveries. Last but not least, the current Bush Crash of 07-08 is discussed as it has unfolded, including the bank run and demise of the Northern Rock bank in the UK. The inexpensive paperback version can be used as a supplement to Money & Banking and Intermediate Macro courses, since the text assumes knowledge of only simple macroeconomic/microeconomic principles.

About the Author
Todd A. Knoop is Associate Professor of Economics and Chair of the Economics and Business department at Cornell College. He is author of *Recessions and Depressions: Understanding Business Cycles* (2004). He earned his PhD. in Economics from Purdue University.

Users Review

From reader reviews:

Jerry Day:

What do you think of book? It is just for students since they are still students or the item for all people in the world, the particular best subject for that? Just you can be answered for that concern above. Every person has various personality and hobby for every single other. Don't to be pressured someone or something that they don't desire do that. You must know how great along with important the book Modern Financial Macroeconomics: Panics, Crashes, and Crises. All type of book could you see on many sources. You can look for the internet methods or other social media.
