The Law of Vibration: The revelation of William D. Gann By Tony Plummer

In 'The Law of Vibration' Tony Plummer presents a new theory which he argues is revealing of a fundamental truth about the deep-structure of the universe. The Law is embodied in a very specific pattern of oscillation that accompanies change and evolution. It can be found in fluctuations in stock markets and in economic activity.
The research here suggests that the pattern was known about in antiquity because it was buried in a short passage in St Matthew's Gospel in the Bible. It also suggests that it was known about in the early part of the 20th century because it was concealed in the structure of books written by the renowned stock market trader, William D. Gann, and by the mindfulness exponent, George Gurdjieff. Both men chose to preserve their knowledge of the pattern in a hidden form for some unknown future purpose.
Now, after 20 years of investigation, Tony Plummer tells the story of how the pattern was originally hidden. Drawing on painstaking research on gematria, the enneagram and financial market analysis, Plummer reveals the existence of a behavioural pattern that may have profound implications for the way that we view the world. Plummer's work is elegantly structured and illustrated throughout. It is an exciting and thought-provoking study for Gann enthusiasts, and also for investors, economists and scientists who have an interest in the laws that underpin systemic coherence and produce collective order.

Editorial Review

About the Author
Tony Plummer is the director of Helmsman Economics Ltd. He is a former director of Hambros Bank Ltd, of Hambros Fund Management PLC, and of Rhombus Research Ltd. He is a Fellow of the Society of Technical Analysts in the UK, and was until November 2011, a Visiting Professorial Fellow in the Economics Department at Queen Mary, University of London. He is the author of 'Forecasting Financial Markets', which describes the influence of crowd psychology on economic activity and financial market price behaviour. Tony has worked and traded in financial markets since 1976, concentrating primarily on bonds and currencies. He now specialises in strategic economic and financial market analysis, and writes and lectures on group behaviour and trading competencies. He has a Masters degree in economics from the London School of Economics and an Honours degree in economics from the University of Kent. He has a four-year training in Core Process Psychotherapy and is a qualified NLP practitioner.

Users Review

From reader reviews:

Jonathan Head:

As people who live in the particular modest era should be upgrade about what going on or data even knowledge to make these individuals keep up with the era and that is always change and make progress. Some of you maybe can update themselves by looking at books. It is a good choice in your case but the problems coming to a person is you don't know what kind you should start with. This The Law of Vibration: The revelation of William D. Gann is our recommendation to cause you to keep up with the world. Why, because book serves what you want and want in this era.

Patti Metivier:

Information is provisions for people to get better life, information today can get by anyone in everywhere. The information can be a know-how or any news even a problem. What people must be consider when those information which is within the former life are challenging to be find than now's taking seriously which one would work to believe or which one the resource are convinced. If you find the unstable resource then you get it as your main information you will see huge disadvantage for you. All of those possibilities will not happen throughout you if you take The Law of Vibration: The revelation of William D. Gann as the daily resource information.

George Thomas:

The Law of Vibration: The revelation of William D. Gann can be one of your beginning books that are good idea. We all recommend that straight away because this publication has good vocabulary that can increase your knowledge in language, easy to understand, bit entertaining however delivering the information. The writer giving his/her effort to put every word into joy arrangement in writing The Law of Vibration: The

revelation of William D. Gann however doesn't forget the main stage, giving the reader the hottest along with based confirm resource info that maybe you can be considered one of it. This great information can certainly drawn you into fresh stage of crucial pondering.

David Auman:

As a university student exactly feel bored for you to reading. If their teacher requested them to go to the library or to make summary for some publication, they are complained. Just little students that has reading's spirit or real their pastime. They just do what the educator want, like asked to the library. They go to generally there but nothing reading very seriously. Any students feel that reading is not important, boring in addition to can't see colorful images on there. Yeah, it is for being complicated. Book is very important in your case. As we know that on this period of time, many ways to get whatever we would like. Likewise word says, many ways to reach Chinese's country. So , this The Law of Vibration: The revelation of William D. Gann can make you truly feel more interested to read.
