A Traveler's Guide to Mars By William K. Hartmann

In this extraordinary Baedeker—accessible, up-to-date, and prodigiously illustrated with photographs from Mariner 9, Viking, Pathfinder, the Hubble Space Telescope, and the ongoing mars Global Surveyor spacecraft—visitors will encounter:

- **Olympus Mons**, the largest volcano in the solar system, rising three times as high as Mount Everest and covering an area the size of Missouri
- **Tharsis Planitia**, the "high plains of Mars," with plains rising 29,000 feet—wide enough to cover Europe.
- **Valles Marineris**, an equatorial canyon so vast that America's Grand Canyon would be a mere tributary.

Plus: the "face" on Mars, the White Rock, the "Canals" of Xanthe—and the first possible evidence of an ancient Martian life-form.
