Essentials of Respiratory Care - E-Book (Kacmarek,Essentials of Respiratory Care) By Robert M. Kacmarek, Steven Dimas, Craig W. Mack

The new edition of this essential resource covers core areas of respiratory care in a convenient outline format that makes it a great quick-reference guide, a handy review tool for credentialing examinations, and a comprehensive reference guide for clinical practice. Key topics include basic science; anatomy and physiology of the respiratory, cardiovascular, renal, and neurological systems; and therapeutic aspects of neonatal, pediatric, and adult respiratory care. Also features extensive coverage of pharmacology and infection control.

- The convenient outline format breaks information down into manageable bits of information that make it ideal for study, review, and quick reference
- The comprehensive coverage of key topics — from introductory material through therapeutic care — consolidates the full spectrum of respiratory care into one essential resource

- Completely updated to reflect the significant advancements in the field of respiratory care
- Reflects the required core content of the most recent National Board for Respiratory Care (NBRC) examination matrix, ensuring the most up-to-date competency requirements for certification
- Features new chapters on ventilatory management for obstructive pulmonary disease, adult respiratory distress syndrome, NIPPV, tracheal gas insufflation, prone positioning, and liquid ventilation
- A redesigned format provides easier navigation through the text
