The Chinese State, Oil and Energy Security (International Political Economy Series) By M. Taylor

Monique Taylor analyses the policy rationale and institutional underpinnings of China's state-led or neomercantilist oil strategy, and its development, set against the wider context of economic transformation as the country transitions from a centrally planned to market economy.

Editorial Review

Review

“Taylor’s study is a good point of departure for analysing the actions of China’s oil companies in the context of future developments in the global oil sector. … provide students of contemporary China, international relations scholars, and people with a general interest in global affairs with a good overview of the various facets of China’s rise and help them reflect on the government’s vision and goals which China’s propaganda machinery will be inclined to disseminate in the future.” (Susann Handke, China Information, Vol. 23 (3), November, 2015)

“In this book, Monique Taylor has provided a thoughtful and refreshing analysis of China’s oil industry that should be read by students, scholars and policy analysts interested in the governance of this country. The line of argument is well-founded and convincing.” (Philip Andrews-Speed, China Quarterly Review, Vol. 222, June, 2015)

About the Author
Monique Taylor is a Postdoctoral Fellow in the China and Globalization Research Cluster and Public Policy and Global Affairs Programme, School of Humanities and Social Sciences at Nanyang Technological University, Singapore. Previously she was a lecturer in the School of Political Science and International Studies at the University of Queensland, Australia.

Users Review

From reader reviews:

Willie Blackburn:

Would you one of the book lovers? If yes, do you ever feeling doubt while you are in the book store? Try and pick one book that you just dont know the inside because don't ascertain book by its cover may doesn't work is difficult job because you are afraid that the inside maybe not while fantastic as in the outside seem likes. Maybe you answer may be The Chinese State, Oil and Energy Security (International Political Economy Series) why because the excellent cover that make you consider with regards to the content will not disappoint anyone. The inside or content is fantastic as the outside or even cover. Your reading sixth sense will directly make suggestions to pick up this book.

Sally Staten:

In this time globalization it is important to someone to find information. The information will make someone to understand the condition of the world. The health of the world makes the information quicker to share. You can find a lot of references to get information example: internet, paper, book, and soon. You will observe that now, a lot of publisher this print many kinds of book. The actual book that recommended for you is The Chinese State, Oil and Energy Security (International Political Economy Series) this e-book consist a lot of the information from the condition of this world now. This book was represented so why is

the world has grown up. The dialect styles that writer use to explain it is easy to understand. Typically the writer made some exploration when he makes this book. Here is why this book acceptable all of you.

Abram Huffman:

That reserve can make you to feel relax. This specific book The Chinese State, Oil and Energy Security (International Political Economy Series) was multi-colored and of course has pictures on the website. As we know that book The Chinese State, Oil and Energy Security (International Political Economy Series) has many kinds or category. Start from kids until adolescents. For example Naruto or Investigation company Conan you can read and think you are the character on there. So , not at all of book are generally make you bored, any it offers you feel happy, fun and chill out. Try to choose the best book for yourself and try to like reading that will.

Lynn Hardie:

As a college student exactly feel bored to reading. If their teacher expected them to go to the library or to make summary for some reserve, they are complained. Just tiny students that has reading's heart or real their pastime. They just do what the educator want, like asked to go to the library. They go to right now there but nothing reading seriously. Any students feel that looking at is not important, boring as well as can't see colorful pictures on there. Yeah, it is being complicated. Book is very important for you personally. As we know that on this period of time, many ways to get whatever we wish. Likewise word says, many ways to reach Chinese's country. Therefore , this The Chinese State, Oil and Energy Security (International Political Economy Series) can make you really feel more interested to read.
