Nude Poses For Art Students: 113 Black and White Pictures By Mr. Carney Malone

This book is not intended to replace the traditional life drawing class. It cannot compete with the joy of breaking your charcoal stick during a two minute drill while your art teacher menacingly hovers above you. It is intended to supplement the life drawing class by proving more diverse models and poses than you would get in a life drawing class. For example, when were you able to draw a live jumping model? I have worked with excellent models in creating the pictures for this book. There are over thirty different models included in this book. Dancers are well represented. There are four ballerinas who dance with companies in major cities. Two other models specialize in modern dance. Two have appeared in Playboy publications. One had her own spread in a recent issue of Penthouse. Yet another is an emerging adult film star. I have chosen to include two fitness models in this book. Their excellent musculature should be an inspiration to the aspiring artist. There are even a figure skater and an aerialist. I trust this book will bring many hours of stimulation and enjoyment for the aspiring artist who wishes to practice his drawing of nudes outside the class.
