Elder Abuse and Neglect: Causes, Diagnosis, and Interventional Strategies (Springer Series on Comparative Treatments for Psychological) By Mary Joy Quinn RN MA, Susan K. Tomita MSW PhD

In this second edition of their classic volume, the authors present their elder abuse diagnosis and intervention model. This comprehensive model of detection, assessment, and intervention enables the practitioner first to identify the type of elder mistreatment, including physical, sexual, psychological, and financial. It then provides systematic and realistic interventions.

This updated edition also includes information on legal interventions with suggestions on how the practitioner should act in the courtroom, give testimony, document findings, and prepare for legal involvement with the criminal justice system. Actual legal tools are included in the appendix. This is a classic resource for all health professionals who work with the elderly.

Editorial Review

Review

"In the new edition of *Elder Abuse and Neglect*, Quinn and Tomita have done an extraordinary job of synthesizing elder abuse research and practice developments....After being presented with a systematic and carefully constructed exposition of the phenomenon of elder mistreatment, readers are taken step-by-step from the very first referral phone call through the diagnostic and intervention processes used with clients and their families. The result is a comprehensive text on elder abuse and a remarkable guide for practice."--**Rosalie Wolf**, Executive Director, Institute for Aging, Memorial Hospital

"The model developed by Quinn and Tomita is especially important in guiding practitioners and planners toward effective detection, assessment, and intervention with this population. In addition, their model is well-grounded in the literature and represents a scholarly, as well as practical achievement."--**Patricia J. Brownell**, DSW, Fordham University, School of Social Service
