Sociological Snapshots 4: Seeing Social Structure and Change in Everyday Life By Jack Levin

When it comes to Sociology, "seeing" is indeed believing. In **Sociological Snapshots 4: Seeing Social Structure and Change in Everyday Life**, Jack Levin bridges the gap between sociological theorizing and everyday experiences by developing students′ ability to "see" sociology via "snapshots" of culture and social structure. Unlike other basic readers, this book contains a set of informal essays with topics ranging from elevator culture to domestic terrorism, from fads to the Washington, D.C., snipers. In a simple and entertaining style, this book continues to link everyday experiences to foundational concepts and concerns and analyze data about social reality.

Editorial Review

Review
"The major strength of Levin's Sociological Snapshots is its readability for college students. This comes from the fact that it is well-written in more of a journalistic style, and from the very engaging content of the essays. I think that by including reference to classic and relevant sociological research, the book also really does justice to the contributions made by the discipline. As an alternative to information-dense, but sometimes boring standard textbooks, it is really great to have it available. I have used previous editions on several occasions and always have had positive student response to the text." -- Joel See "Overall this is a very strong reader. The essays are general enough to be moved around providing the instructor with the flexibility to build the course the way s/he desires. The text is very readable and the essays are interesting to students- also the essays within are relatively brief. All helps avoid the 'textbook dread' that some students bring to an Introductory course. The strong application of ideas within the readings helps illustrate the points made in lecture and the relatively low cost of the text makes it even more `student friendly'." -- Robert Carrothers "An excellent book for the marginally interested, poorly prepared student that also does not turn off the better students - and that is quite an achievement." -- Steve Beach
