A Brief History of Modern Psychology By Ludy T. Benjamin Jr.

In *A Brief History of Modern Psychology*, Ludy Benjamin, leading historian in the field, discusses the history of both the science and the practice of psychology since the establishment of the first experimental psychology laboratory in 1879.

- Captures the excitement of this pervasive field that features prevalently in modern mass media
- Presents facts and interesting tidbits about individual psychologists' lives and ideas, as well as illuminating tie-in's to the social contexts in which they lived
- Features widely known figures such as William James, Carl Jung, Wilhelm Wundt, G. Stanley Hall, James Catell, John B. Watson, and B.F. Skinner as well as lesser known luminaries such as E.B. Titchener, Mary Calkins, Leta Hollingworth, Kenneth and Mamie Clark, and Helen Thompson Wolley
- Provides the historical and disciplinary context that will help readers to better understand the richness and complexity of contemporary psychology
- Includes discussions of important events, societies, and landmarks in the history of psychology such as the growth of psychological laboratories in the US, the Thayer Conference (the landmark summit which defined school psychology), Kurt Lewin's social action research, and Lewis M. Terman and the Stanford Revision of the Binet-Simon Scale (now the well known, "Stanford-Binet Intelligence Scale")
- Test Bank for instructors with identification, multiple-choice, matching, and essay questions written by Ludy Benjamin available at www.wiley.com/go/benjamin .

Editorial Review

Review
"From a renowned historian and teacher of psychology comes what psychology students will welcome - a crisp and beautifully crafted history of their discipline, replete with fascinating stories of the people who shaped it and whose shoulders we now stand upon." *David G. Myers, Hope College*

"*A Brief History of Modern Psychology* will itself become part of the history of modern psychology. It is a classic work by one of the most distinguished living historians of psychology. Anyone who wishes to understand how the field of psychology has reached its present state should read this book." *Robert J. Sternberg, Tufts University*

"This book offers exciting new analyses of such diverse topics as G. Stanley Hall's genetic psychology, the 19th-century 'public psychologies' of phrenology and mesmerism, and the late-20th-century emergence of a psychology of social action. *A Brief History of Modern Psychology* provides a stimulating new resource that will inspire 21st-century psychology students' interest in their science's past. " *Michael M. Sokal, Founding Editor, History of Psychology*

"The Behaviorism chapter was the best historical introduction that I can remember reading — just what historical writing should be." *Wesley G. Morgan, Department of Psychology, University of Tennessee*

"The reader is guided through over a century of psychology in less than three hundred pages, yet the experience is never a taxing one. Both the precision and the conciseness of the book will undoubtedly make it appealing for undergraduate course work." *ISIS*

"Conversational and…quite readable…easy to study from and deliver[s] plenty of useful information…would also be ideal for the lay reader for a survey of psychology's history." *Metapsychology Online Reviews*

From the Back Cover
No subject captures the attention of people today more than psychology. It pervades television in the form of soap operas, celebrity court cases, police and hospital dramas, talk shows, 'reality′ shows, and infomercials. It is the stuff of movies, magazines, plays, novels, self-help books, sports, jobs, music lyrics, talk radio, and the internet. In *A Brief History of Modern Psychology*, Ludy Benjamin, a leading historian in the field, discusses the history of both the science and the practice of psychology since the establishment of the first experimental psychology laboratory in 1879.

In engaging prose, this book weaves together the historical and disciplinary context that will help readers to better understand the richness and complexity of contemporary psychology.

Users Review

From reader reviews:

Robert Johnson:

Do you one among people who can't read enjoyable if the sentence chained within the straightway, hold on guys this particular aren't like that. This A Brief History of Modern Psychology book is readable through you who hate the straight word style. You will find the facts here are arrange for enjoyable examining experience without leaving possibly decrease the knowledge that want to supply to you. The writer regarding A Brief History of Modern Psychology content conveys thinking easily to understand by many people. The printed and e-book are not different in the content but it just different as it. So , do you even now thinking A Brief History of Modern Psychology is not loveable to be your top record reading book?

Alexander Snider:

A Brief History of Modern Psychology can be one of your beginner books that are good idea. All of us recommend that straight away because this reserve has good vocabulary which could increase your knowledge in vocab, easy to understand, bit entertaining but still delivering the information. The article author giving his/her effort that will put every word into joy arrangement in writing A Brief History of Modern Psychology yet doesn't forget the main level, giving the reader the hottest along with based confirm resource info that maybe you can be considered one of it. This great information can drawn you into new stage of crucial contemplating.

Thomas Smith:

In this time globalization it is important to someone to obtain information. The information will make someone to understand the condition of the world. The healthiness of the world makes the information simpler to share. You can find a lot of recommendations to get information example: internet, newspapers, book, and soon. You can observe that now, a lot of publisher that print many kinds of book. The book that recommended for your requirements is A Brief History of Modern Psychology this publication consist a lot of the information in the condition of this world now. This particular book was represented just how can the world has grown up. The terminology styles that writer use to explain it is easy to understand. The particular

writer made some investigation when he makes this book. Honestly, that is why this book appropriate all of you.

Cody Chenault:

As a scholar exactly feel bored for you to reading. If their teacher questioned them to go to the library in order to make summary for some e-book, they are complained. Just little students that has reading's heart or real their pastime. They just do what the instructor want, like asked to the library. They go to presently there but nothing reading critically. Any students feel that reading through is not important, boring and also can't see colorful pics on there. Yeah, it is being complicated. Book is very important in your case. As we know that on this period of time, many ways to get whatever we would like. Likewise word says, ways to reach Chinese's country. Therefore this A Brief History of Modern Psychology can make you really feel more interested to read.
