Editorial Review

About the Author
Kathy Schwalbe, Ph.D., PMP, is a Professor Emeritus in the Department of Business Administration at Augsburg College in Minneapolis, where she primarily taught courses in project management and problem solving for business. Kathy's first job out of college was as a project manager/officer in the Air Force. She worked for 10 years in industry (Air Force, Boeing, and Clark Oil) before entering academia in 1991. Kathy is an active member of PMI. Kathy earned her Ph.D. in Higher Education at the University of Minnesota, her MBA at Northeastern University's High Technology MBA program, and her B.S. in mathematics at the University of Notre Dame. She was named Educator of the Year in 2011 by the Association of Information Technology Professionals (AITP) Education Special Interest Group (EDSIG). Dan Furlong, PMP, FHIMSS, CPHIMS manages the Project Management Office for the Medical University of South Carolina and also teaches healthcare project management and healthcare technology in their Master in Health Administration program. Dan has served on advisory councils for multiple universities initiating or undergoing accreditation for project management programs. He has been an active member of the PMI Charleston chapter, serving on the board for the past ten years in a variety of roles including VP Professional Development, VP Marketing & Public Relations, VP Community Outreach, President, and Chairman. Dan is a graduate of the PMI Leadership Institute Master Class, a year-long development program offered by PMI to select chapter leaders worldwide. Dan has served on the board of the South Carolina HIMSS chapter and has been a frequent speaker at state and national HIMSS conferences. He was recently named a HIMSS Fellow (FHIMSS) for his contributions to HIMSS and the industry. Dan has hosted multiple 8-hour project management workshops during the HIMSS pre-symposia, and has presented at many other regional, national and international conferences. He has also served on the board or as a board advisor to SC.GMIS, a statewide government technology professional organization, since 2003. He earned his undergraduate degree in Computer Science at the College of Charleston, his MBA at The Citadel, and is currently working on his dissertation for his Doctorate in Health Administration from the Medical University of South Carolina.

Users Review

From reader reviews:

Larry Hunter:

What do you think of book? It is just for students because they're still students or it for all people in the world, what best subject for that? Simply you can be answered for that issue above. Every person has diverse personality and hobby per other. Don't to be forced someone or something that they don't want do that. You must know how great in addition to important the book Healthcare Project Management. All type of book would you see on many methods. You can look for the internet methods or other social media.

Joseph Haner:

Book is to be different for every grade. Book for children till adult are different content. As we know that book is very important for people. The book Healthcare Project Management was making you to know about other know-how and of course you can take more information. It is very advantages for you. The book Healthcare Project Management is not only giving you much more new information but also to become your friend when you feel bored. You can spend your current spend time to read your reserve. Try to make

relationship while using book Healthcare Project Management. You never really feel lose out for everything if you read some books.

Nathaniel Cornelius:

In this time globalization it is important to someone to obtain information. The information will make you to definitely understand the condition of the world. The health of the world makes the information much easier to share. You can find a lot of sources to get information example: internet, magazine, book, and soon. You will see that now, a lot of publisher in which print many kinds of book. The particular book that recommended to you personally is Healthcare Project Management this e-book consist a lot of the information with the condition of this world now. This specific book was represented how does the world has grown up. The language styles that writer value to explain it is easy to understand. Often the writer made some research when he makes this book. This is why this book ideal all of you.

Jason Nimmons:

Reading a book make you to get more knowledge from the jawhorse. You can take knowledge and information from a book. Book is composed or printed or created from each source that filled update of news. With this modern era like today, many ways to get information are available for an individual. From media social such as newspaper, magazines, science publication, encyclopedia, reference book, story and comic. You can add your knowledge by that book.
