Editorial Review

Review

"It is a comprehensive review of the latest understanding of neurophysiology techniques and how neurophysiology relates to clinical function. This edition continues to delight and impress. The topics and updates are spot on. This is an essential title that all neurologists and neuroscience professionals must have on their bookshelves." - Joseph I Sirven, MD(Mayo Clinic Arizona) **Doody's Review Service**

"Aminoff's Electrodiagnosis in Clinical Neurology has become known as the classic textbook of electrodiagnostic methodology…The list of collaborators reads like a Who's Who of clinical neurophysiology. Electrodiagnosis in Clinical Neurology belongs in every clinical neurophysiology laboratory and should be easily accessible to residents and students. Academic neurologists and physiatrists and those in clinical practice - both those who use these techniques and those who simply refer their patients for such studies - should find this text a valuable reference source as well." - JAMA, September 2005

About the Author
Dr. Michael Aminoff was born and educated in England, graduating from University College London in 1962 and as a physician from University College Hospital Medical School in 1965. He subsequently trained in neurology and neurophysiology at The National Hospital (Queen Square) in London, and in 1974 moved to UCSF where he has been Professor of Neurology since 1982. He was Director of the Clinical Neurophysiology Laboratories at UCSF until 2004, when he became Executive Vice Chair of the department of neurology, and also directs the Parkinson's Disease Clinic and Research Center, a National Parkinson Foundation Center of Excellence.

He is the author of more than 230 published medical or scientific articles, as well as the author or editor of some 29 books. His published scientific contributions led to the award of a Doctorate in Science, an advanced doctorate in the Faculty of Science, by the University of London in 2000. He is the one of the two editors-in-chief of the four-volume Encyclopedia of the Neurological Sciences (2nd Edition, Academic Press, 2014), and one of the series editors of the multi-volume Handbook of Clinical Neurology (Elsevier). He was Editor-in Chief of the journal Muscle & Nerve from 1998 to 2007 and serves on numerous other editorial boards. He was a director of the American Board of Psychiatry & Neurology for 8 years, and chair of the board in 2011.

Dr. Aminoff has received numerous prizes including the Lifetime Achievement Award of the American Association of Neuromuscular & Electrodiagnostic Medicine in 2006 and the A.B. Baker Award of the American Academy of Neurology for life-time achievements and contributions to medical education in 2007. In 2010, he was awarded the title of "Distinguished Professor" at the University of California, San Francisco.

He is married and has three children, one a pediatric rheumatologist, another a federal defense attorney, and the third an assistant district attorney.
