Editorial Review

Review
The discovery of place names by itself should be acclaimed as one of the great breakthroughs in the history of Maya hieroglyphic decipherment. Despite its seemingly specialized topic, this book should appeal to a wider audience. The study represents another step forward in the process of unraveling the meaning of Maya inscriptions, and brings to the forefront questions that can only be answered through interdisciplinary research. (*Journal of Field Archaeology and The Americas*)

About the Author
David Stuart is Chair of the Department of Art and Art History at the University of Texas, Austin.

Stephen D. Houston is Dupee Family Professor of Social Sciences and Professor of Anthropology at Brown University.

Users Review

From reader reviews:

John Townsend:

In this 21st century, people become competitive in every way. By being competitive currently, people have do something to make these survives, being in the middle of the actual crowded place and notice simply by surrounding. One thing that often many people have underestimated the idea for a while is reading. Sure, by reading a reserve your ability to survive improve then having chance to remain than other is high. In your case who want to start reading the book, we give you this Classic Maya Place Names (Dumbarton Oaks Pre-Columbian Art and Archaeology Studies Series) book as beginner and daily reading reserve. Why, because this book is greater than just a book.
