How to Design, Write, and Present a Successful Dissertation Proposal By Elizabeth A. Wentz

How to Design, Write, and Present a Successful Dissertation Proposal, by Elizabeth A. Wentz, is essential reading for any graduate student entering the dissertation process in the social or behavioral sciences. The book addresses the importance of ethical scientific research, developing your curriculum vitae, effective reading and writing, completing a literature review, conceptualizing your research idea, and translating that idea into a realistic research proposal using research methods.

The author also offers insight into oral presentations of the completed proposal, and the final chapter presents ideas for next steps after the proposal has been presented. Taking the view that we “learn by doing,” the author provides Quick Tasks, Action Items, and To Do List activities throughout the text that, when combined, develop each piece of your research proposal. Designed primarily for quantitative or mixed methods research dissertations, this book is a valuable start-to-finish resource.

“After reading MANY books on the dissertation process, I was still as confused and frustrated as before reading them, as they were not very helpful. Most of them just broadly mention the content of the chapters without going into details. Fortunately, I came across the reference for your book, *How to Design, Write and Present a Successful Dissertation Proposal.* I was amazed. I am gaining so much insight on the process of writing the proposal. I like your approach in this book. In addition to your very clear explanation of the process and suggestions, the *To Do List*, *Quick Task* and *Action Item* are great guides in helping me to think through what I am doing.”

(Monica B. – Graduate Student)
