The Art of Rimfire Accuracy By Bill Calfee

Bill Calfee has been working with guns since the 1970's and decided to focus on the 22 rimfire beginning in the 1980's. Since the 1980's Bill has had many ideas on how to improve the accuracy of the 22 rimfire, some ideas have increased the accuracy potential tremendously and some ideas proved out to be learning experiences for future ideas. Since about 2001 Bill has tried to capture his ideas, experiments, testing, and conclusions by writing about them. He has written about the successes that increased accuracy as well as the ideas that didn't improve accuracy. Although Bill is not a writer, he felt compelled to pass along the knowledge that he has obtained in the spirit of improving the accuracy of the 22 rimfire benchrest guns for everyone that has like goals. He has shared his writings previously with the benchrest community through different avenues. In this book, all of Bill's writings are assembled in a chronological order to show the evolution of the accuracy of the 22rf as he has experienced it. He goes into detail about each aspect of rimfire accuracy discussing all of the components and their contribution to the improved accuracy. This book is a must have for everyone that is serious about increasing the accuracy in their 22 rimfire guns.

Editorial Review

About the Author
William "Bill" Stewart Calfee was born September 1944 about half way between Hindman & Hazard, KY. His family relocated to New Albany, IN during 1953. The Calfee family didn't have much but, they had plenty of love to smooth out the rough times. Bill spent his youth in New Albany doing research along the Ohio River as most young boys love to do. He loved to spend his free time enjoying Mother Nature to her fullest. As a young lad Bill would scan various mail-order catalogs using a flashlight under his bed covers while dreaming about owning guns. Of course, he was supposed to be sleeping. Sleeping or dreaming about guns . . . that was a no brainer for Bill . . . he could sleep another time. Bill enjoyed the mechanics of things and how they worked so much that he always had to dis-assemble items to see why they worked the way they did. This "Have to know why" spirit carried over into his love of guns. Bill was fortunate to be growing up during a time that allowed competing high school rimfire rifle teams. Bill was a member of his New Albany high school's rimfire team. This time sparked his interest into accurate rifles and what causes them to be accurate. Unknowing to him at the time, his future path was coming into focus. Back in the early 70's Bill had a terrible accident while driving his employers' utility truck. He had multiple fractures of his left leg and hip, a broken right hand and some internal injuries. This accident played a large part in him devoting more time to his gunsmithing interest due to the prolonged time needed for his recovery. His interest in guns helped him through this trying and difficult time. Bill had this desire to understand and make accurate rifles. The biggest obstacle to reaching his goal was that he didn't know how to operate a metal lathe or mill. He met this challenge by reading all he could about them and putting his hands to the controls.

Users Review

From reader reviews:

Tammy Pursell:

Why don't make it to be your habit? Right now, try to ready your time to do the important action, like looking for your favorite e-book and reading a guide.
